

## Waiver Rule for MGMT 6020 – *Financial Management I*

---

This course is a requirement in the curriculum for the M.S. in Quantitative Finance and Risk Analytics (QFRA) and the Master of Business Administration (MBA). It introduces students to the core concepts of finance with an emphasis on how decision-makers, such as firm-managers and investors, use these concepts to address the problems that they commonly face.

### Criterion for Waiving *Financial Management I*

There are two options: (1) Passing level 1 of the CFA exam (2) Taking an equivalent **graduate** level course not more than 3 years ago and obtaining an A grade level. You may either transfer that course in or use it to waive and replace MGMT 6020. The replacement course must be one approved by the program adviser.

### How should you request a waiver review?

Send a copy of your CFA exam results or your transcript documenting an “A” grade in a graduate financial management class, as well as the course syllabus, to Sonja Dennis Francis at [francs@rpi.edu](mailto:francs@rpi.edu) (phone: 518-276-2033). Provide your name, RIN, and email contact information. Send by the August 14, 2020 deadline.
