

The Lally School of Management

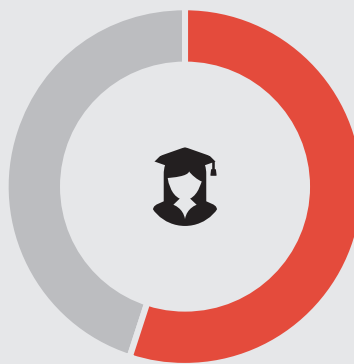

M.S. IN TECHNOLOGY COMMERCIALIZATION & ENTREPRENEURSHIP

The M.S. in Technology Commercialization & Entrepreneurship (TC&E) will give you the skills required to become a critical player in the rapidly evolving world of breakthrough innovation. As a student in TC&E, you will work with inventors and scientists, develop and test new business models, confront key issues of management, funding and law, and interface with a forward-thinking faculty focused on how business can help solve serious global challenges. TC&E students also receive mentoring from ongoing interaction with a highly engaged advisory board of executives in technology commercialization, entrepreneurship, and management professions.
